## Education & Training Plan Photography Entrepreneur Certificate Program

Student Full Name: \_\_\_\_\_

Start Date: \_\_\_\_\_ End Date: \_\_\_\_\_

**Program includes National Certification**  
**Mentor Supported**

### Photography Entrepreneur Specialist Certificate Program

Course Code: TJC-PHOTO  
Program Duration: 6 Months  
Course Contact Hours: 480  
Student Tuition: \$3,850

#### The Photography Entrepreneur Specialist

Photographer entrepreneurs start their own photography businesses. Often they work within a specialized niche or group of niches and market their services to specific target markets. In addition to having photography knowledge and skills, the photography entrepreneur must also acquire business savvy, including how to establish a legal form of the business, how to write a business plan, how to brand and market the business, and how to use the numerous types of contracts required to comply with copyright and other types of photography-related laws. If you're looking to strike out on your own as a photographer, any small business needs a good business plan and this course will walk you through the ins and outs of the business aspects of photography so that you can start to earn a living and be your own boss without having to leave your passion for photography behind. This course covers the basics of setting up a photography business.

#### The Photography Entrepreneur Specialist Program

The photography industry is expected to grow 3 percent from 2014 to 2024. The photography entrepreneur can use their great communication skills, excellent eye for detail and technical expertise to help their business advance. The photography entrepreneur can expect to obtain clients in their own town, however, willingness to travel makes way for more opportunity and a larger clientele. Photography Entrepreneurs require a variety of business and communication skills over and above the artistic skills of a photographer. Opportunities will continue to grow for Photography Entrepreneurs as they continue to sharpen their business skills with marketing, sales and advertising in order to land more projects from weddings and special events, to portraits and specialty shoots.

## Education and National Certifications

- Students should have or be pursuing a high school diploma or GED.
- There are no state approval and/or state requirements associated with this program.
- There is a National Certification exam available to students who successfully complete this program:
  - **Microsoft Office Specialist (MOS) Certification Exam.**

## Program Objectives

At the end of this course, students will be able to:

Describe a career as a professional photographer including the different niches

- Explain the different types of business structures common for professional photographers
- Explain the different components of a business plan for a photography business
- Explain how a professional photography can brand a photography business endeavor and how effective branding can help the photography business
- Explain the different components of a marketing plan for a photography business
- Explain common ways that a professional photographer can use social media to advance a photography business
- Explain the concepts related to costs and pricing in a photography business
- Detail the important considerations and legal and ethical principles related to the required contracts for a photography business

## National Certification

Upon successful completion of this Tyler Junior College University program, students would be eligible to sit for the Microsoft Office Specialist (MOS) exam. Although there are no state approval, state registration or other state requirements for this program, students who complete this program at Tyler Junior College University will be prepared and are eligible to sit for this national certification exam. Students who complete this program can and do sit for the MOS national certification exams and are qualified, eligible and prepared to do so. Tyler Junior College University works with each student to complete the exam application and register the student to take their national certification exam.
